

INSTITUT SUPÉRIEUR DES ÉTUDES TECHNOLOGIQUES DE ZAGHOUAN

DÉPARTEMENT TECHNOLOGIE INFORMATIQUE

Application Web

Gestion de centre de formation

Encadré par :M.Malek Bouzaiene/Mme.Asma Ziadi

Elaboré: Mohamed Ismail Ben Alaya

Année Universitaire: 2023/2024

Société d'accueil :

IamtCreative est une agence de développement web et mobile, offrant des solutions innovantes et collaboratives. Nous nous distinguons par notre attention aux interactions clients, notre veille technologique, notre créativité, et notre expertise en langages de programmation et frameworks.

Problématique :

- Choix de formations limité
- Plannings non personnalisés.
- Contraintes géographiques.
- Recrutement déséquilibré.

Étude de l'existant:

Les avantages

- Atmosphère d'apprentissage collaborative.
- Instructeurs dévoués agissant comme des mentors.
- Projets pratiques permettant d'appliquer les principes théoriques

les inconvénients

 Manque d'espace de candidature pour le coach pour GOMYCODE

Étude de l'existant:

- Cours variés en technologie
- Formation en programmation, développement web et mobile
- Accès à des mentors expérimentés pour un soutien personnalisé

 Frais d'inscription élevés pour certains cours, limitant l'accessibilité

Méthodologie et environnement de travail

Qu'est-ce que Scrum:

Scrum est une méthode agile de gestion de projet qui organise le travail en sprints pour livrer régulièrement des incréments de produit. Elle met l'accent sur la collaboration, la flexibilité et l'amélioration continue.

Flexibilité

Transparence

Collaboration

Équipe de Scrum:
